NISHANTH V

Computer Science & Engineering Student | Aspiring Cloud Engineer

R.M.D. Engineering College | Tamil Nadu, India

nishanthv4@gmail.com | github.com/Nishanthv4 | linkedin.com/in/nishanth-v-129367360

PROFILE

First-year B.Tech CSE student focused on programming fundamentals and practical software. Interested in cloud engineering, software development, and distributed systems; currently learning Linux, Docker, and AWS.

EDUCATION

B.Tech, Computer Science and Engineering | 2026 - Present

R.M.D. Engineering College, Tamil Nadu, India

TECHNICAL SKILLS

Programming	C, C++ (actively demonstrating); Python, JavaScript, TypeScript (project practice)
Web	HTML5, CSS3; React (project practice); Node.js (learning)
Tools	Git, GitHub, VS Code
Cloud & DevOps	Linux, Docker, AWS (learning and exploring)
Other	SQL and Java (learning)

SELECTED PROJECTS

StudyMate - Student Study Planner

In progress | HTML5, CSS3, JavaScript, LocalStorage

- Designing a local-first planner for academic tasks, timetables, deadlines, and exam countdowns.
- Working on missed-task rescheduling and backup/restore; responsible for UI and local persistence.

AI News Detector - Credibility Analysis

Research concept / active build | JavaScript, HTML, CSS, REST APIs

- Exploring context and source signals such as sensational language and missing primary citations.
- Designed as decision support, not an absolute true/false classifier; developed UI and report approach.

QuizHero - Web & Android Quiz App

Active project | React, TypeScript, Vite, Capacitor

- Built an interactive quiz experience with question flow and score tracking.
- Configured Capacitor for Android packaging. Public repo: github.com/Nishanthv4/Quizhero.

CURRENT FOCUS

Data structures and algorithms, core CS fundamentals, Linux administration, Docker, AWS foundations, and building verifiable software projects for future cloud engineering internships.
